#### What Gen. J. C. Breckinridge Thinks About the Situation.

NEW YORK, Jan. 30 .- Speaking of the South African war, Brigadier General J. C. Breckinridge, inspector general of the army, said last night: "The situation is generally what everybody ought to have expected when the war began. The English have undertaken the subjugation of a body of God-fearing frontiersmen, who knew how to take care of themselves in and overcome the obstacles of nature, and how to handle their weapons, and who are as fearless as any white man Besides they are so distant from England that this becomes a matter of first importance, and the British governnow undergoing the same experience it did with our ancestors, though probably with greater difficulties in the present case, as the points of assault are farther from the seacoast, which is her channel of communication. In our case, at the close of the second war for independence, as we used to call it, probably no nation ever had & more instructive battle than the English experienced under Pakenham and Gibbs at New Orleans, when they met General Jackson. There they marched directly on the position assumed by the frontiersmen for defense, who withheld their fire until the enemy were near. The discharge of their rifles wiped away the British lines. The Boers pursued similar tactics, for I notice they waited until the enemy were within two hundreds yards, when they opened

#### UNFIT FOR LEADERSHIP.

German Officer's View of the British Generals in South Africa.

BERLIN, Jan. 30 .- The British defeats in South Africa continue to engross public attention. General Von Bogustlawsky, who is a leading military writer, said today: "What strikes military men as most unfavorable is the total lack of topographical knowledge among the British officers. Under analogous conditions for example, our general staff would long ago have studied the topography of Spion kop. We admit the bravery of the soldiers, but utterly condemn the incapacity of the leaders. As for Great Britain's pestige, she must be counted a world power so long as her fleet is intact, but the reputation of her army is gone. Moreover, it is quite certain that the British navy has failings which will appear the first time there is a serious collision. For instance, the naval guns are not up to requirements." According to private reports received here the Cape Dutch are still joining the Boer forces.

The German press expresses the belief that Great Britain has about reached the end of her military resources and would do well to acknowledge defeat and to con-

The Kreuz Zeitung, which attributes her reverses largely to the absence of compulsory military service, says: "Among the most interesting results of the South African campaign is the much denied truth that the worth of nations is weighed in war's balance and England is already in the midst of a catastrophe.

The Deutchse Tages Zeitung says it is evident that not only General Warren, but General Buller's whole force, has been defeated on the Tugela. This it calls the beginning of the end.

#### A Letter from Sir Alfred Milner to Mr. Chamberlain.

LONDON, Jan. 31 .- A blue book was issued vesterday relating to South Africa and covering the period from March last to the present month. Its most interesting feature is a letter from Sir Alfred Milner to Mr. Chamberlain, dated Nov. 30, in which he says: "I have always regarded a war with the republics as a very formidable war, indeed, owing to the colossal armaments of the Transvaal. In view of these I could but anticipate a terrible strugglethe last thing in the world to which I or any man could look forward otherwise than with the gravest solicitude. In the course of the same letter Sir Al-

Burglars continue to loot residences in Muncie at will, and citizens are becoming so bamy alarmed that private detectives are fluding many jobs, while the police are preparing to buy a pair of Kentucky bloodhounds. During the past two weeks twenty houses have been robbed and there is not the slightest clew to any. Last night burglars ransacked the residence of Dr. Bucklin. Two young women, school teachers, entered their room while the thief was at work. He crawled under the bed, and when the roomers had gone to sleep left. They were awakend at his departure and screamed, but he got away with \$40 belonging to one of them. In another room adjoining jewelry and money on a dresser was taken. #### Dr. Casto Bound Over to Circuit Court -Feeling Against Him Intensified.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Jan. 30 .- Dr. J. C. Casto, accused of arson, waived a preliminary examination this morning and was bound over to the Circuit Court in the sum of \$6,000. The Police Court room was crowded and when it was made known that Mr. H. Hulman, who had been on his first bond, had declined to sign a new one, there were expressions of the hope that the doctor would have to go to jail. The feeling against him here has been intensified by the statements he has furnished to the local newspapers, one of which was that the attempt to burn and blow up his three stores had been a good advertisement and increased his business. He stoutly insists that it was the work of his enemies who wanted to ruin him. The doctor says that most of the stories printed about him are untrue and offers \$1,000 for the name of the neighbor who gave a newspaper the story that the shooting at his residence a few weeks ago grew out of the refusal of Mrs. Casto to deed a piece of property to him.

Special to the Indianapolis Journal. PERU, Ind., Jan. 30-In the trial of Mrs. Edith Quick the State rested its case today, after making what seems a very strong prosecution. The defense made its opening statement, which is the first time any idea has been gained of what the plans would be. It is held that William Quick received the poison by mistake, or that he took it with suicidal intent, and it seems the defense will try to show the latter. An attempt will be made to show the man was of a very despondent disposition. The mother of the dead man testified to his state of chronic ill health.

#### Subject of a Lecture Before the Purdue Engineering Students.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Jan. 30.-The Hon. Martin A. Knapp, chairman of the Interstate-commerce Commission, this afternoon addressed 250 Purdue engineering department students on "Interstate-commerce Laws and Their Relation to the Public." He spoke for more than an hour, reviewing the circumstances leading to the enactment of the law, its provisions and the difficulties of accomplishing the things most to be desired under those provisions. stop the Cough and Worl Off the Cold He insisted that to the public highway the people had an inherent, inalienable right. old in one day. No Cure, No Pay. Price 25c. and that this right was particularly ap-

plicable to the railroads as common carriers, restraint of which right would be as serious as interference with any other prerogative of the people. Discriminations, favoritism, preferentials and differentials, carload and less than carload rates were subjects all touched upon and illustrated by examples, the weight of every argument being directed to the one general contention that the relation of railroads to shippers involved questions of greater magnitude than any of the other problems with which the people were confronted. He asserted that were there the same regularity in the making of freight rates as in the price of postage stamps and this rule had been in effect, there would be no trusts to-day. It was not high rates, the speaker said, that the merchants and shippers complained of, it was that there should be an inequality giving to one community an advantage over a competing community. The question of how to regulate this was complex and puzzling. The law, as it exists, he said, was crudand inadequate. Mr. Knapp's exposition of its provisions and methods of application and is gone. Louisville Legion and Other Militia on Board Special Trains.

LOUISVILLE, Ky., Jan. 30.-The First Regiment Kentucky National Guard, known as the Louisville Legion, left here for Frankfort at 8:45 p. m., under command of Col. C. C. Mengel. Two Gatling guns were taken as part of the regiment's armament. The Chesapeake & Ohio train, which reached here at 8 o'clock from Frankfort,

Senator Blackburn was then a candidate for re-election, and was opposed by that the deceased "came to their death at the Kenton man. On this rock was split the fabric of friendship between Goebel and Col. John L. Sandford, a Covington banker, who was a warm supporter of the Woodford county idol. Always resentful and aggressive, Goebel bought a newspaper and made a vicious assault on the character of Col. Sandford. They met on a Covington street a few minutes after 1 o'clock on the afternoon of May 10, 1896, and drew their weapons simultaneously. Two shots were fired so near together that it was impossible to say who fired first: but Sandford fell dead, with a bullet hole in his forehead. Sandford's shot went through the right side of Goebel's coat Goebel was never incarcerated-he was not even indicted. He was boss of the trial court and owned the coroner, and his plea of self defense was considered sufficient to exonerate him.

At the funeral, Senator Blackburn said to Sandford's widow: "Leave it to me Kate. I will not rest until this is avenged.' "My life work shall be to hound to th grave the assassin of my friend."

Then he plunged into politics, and soon became the undisputed master of Covington and Kenton county. His only defeat was when he tried to se-

cure the Democratic nomination for appel-

late judge in his district. A deamock in

the convention followed, and compelled the

withdrawal of Mr. Goebel, the nomination and election going to Representative Paynter, of Maysville. Then came his career in the Senate, which developed the Sandford affair, and then, in furtherance of his design to intrench himself in State politics, the passage of the Goebel election law, which was bitterly fought by nearly all the most prominent dacy in the present contest. The Louisville convention, held in June last, was the next step. Goebel went into the convention with 205 delegates out of more than s thousand. In two days he had tricked Captain W. J. Stone out of enough support to enable him to throw out as many delegates pledged to General r. Wat. Hardin as were necessary, substituting for them Goebel adherents, and he was, by

the contest now nearing completion before the Legislature of the State. Goebel's marked characteristic has been the subordination and overriding of everything and everybody inimical to his political interests. Neither men nor friendship have been allowed to stand in his way. He has never been known to smile or to shed a tear. Women had no place in his life, and whisky and tobacco were abhorrant to him. Sociability was an unknown faculty, and a story or a joke had no part in his thoughts. "The Knight of the Macchiavellian Countenance," Henry Watterson's descriptive phrase, coined during the struggle over the election bill which bears his name, fits him exactly, and his mind

is as Macchiavellian as his face. He is a man who despises any ostentation whatever. He steadfastly refused to have his picture taken up to his candidacy for Governor, and persistently refused to write an autobiography of his life, and none is found in the many histories lives of famous men of Kentucky. He has made his home for years in Covington with Mrs. Bryson, on Sixth street. He is very simple in his manners, and, as Mrs. Bryson has often remarked, he is so quiet and gentle that they would scarcely know he was in the house. He is a hard, close student, and is ever poring over law books or literature. He has never married.
